

CH-QUAT bi-annual meeting on

# Geo&Archaeology

Naturhistorisches Museum Bern

Saturday, 24.1.2009, 9:00 – 17:00

## Aims and scope

Collaboration between archaeologists and environmental scientists has proven to be a highly valuable and rewarding research path for all partners. This meeting aims at highlighting the advantages, solutions and potential problems encountered by multidisciplinary approaches focused on the complex subject of interaction between humans and the Quaternary environment.

While the morning is dedicated to invited speakers, we are calling for talks and posters for the afternoon session. Topics may include all aspects of Quaternary science and we strongly encourage students and young scientists to present the results of their ongoing research. Presentations may be on both multidisciplinary or specific research topics.

The meeting will close with the general assembly of CH-QUAT.

## Programme

### Morning session (invited talks)

M. Bell "Recent developments in geoaerchaeology in the British Isles."

I. Hajdas et al. "How to correctly report geochronological data."

D. Jordan "Geophysical approaches in geoaerchaeological research."

H. Hüster-Plogmann & P. Rentzel "Site formation processes and conservation in neolithic lakeside settlements."

H.R. Graf "Classification and nomenclature of Quaternary deposits."

J.C. Castel "The relevance of small bone fragments in the interpretation of palaeolithic faunal assemblages."

**Lunch** and chance to visit the museum (both included in subscription fee).

**Afternoon session (open talks and posters)**

The number of talks is limited. The three best poster presentations will receive awards!

## Fees and deadlines

Early registration (till 15.12.2008) CHF 35/15/50 \*

Regular registration (till 15.1.2009) CHF 45/25/60 \*

Late registration (after 15.1.2009) CHF 55/35/70 \*

\* [CH-QUAT members/student members/others], includes buffet lunch

Abstracts for oral presentations: 15.12.2008

Abstracts for posters: 15.1.2009

**Registration:** preusser@geo.unibe.ch (Frank Preusser)
